

## **The Bipartisan Infrastructure Framework Bill Will Help Everyone**

### **Democrats believe Everyone Does Better When Everyone Does Better!**

Improve healthy, sustainable transportation options for millions of Americans by modernizing and expanding transit and rail networks across the country, while reducing greenhouse gas emissions.

Repair and rebuild our roads and bridges with a focus on climate change mitigation, resilience, equity, and safety for all users, including cyclists and pedestrians.

Build a national network of electric vehicle (EV) chargers along highways and in rural and disadvantaged communities. It will build 500,000 EV chargers.

Electrify thousands of school and transit buses across the country to reduce harmful emissions and drive domestic manufacturing of zero emission vehicles and components.

Eliminate the nation's lead service lines and pipes, delivering clean drinking water to up to ten million American families and more than 400,000 schools and child care facilities that currently don't have it, including in Tribal nations and disadvantaged communities.

Connect every American to reliable high-speed internet, just as the federal government made a historic effort to provide electricity to every American years ago.

Upgrade our power infrastructure, by building thousands of miles of new, resilient transmission lines to facilitate the expansion of renewable energy.

Create a first of its kind Infrastructure Financing Authority that will leverage billions of dollars into clean transportation and clean energy.

Make the largest investment in addressing legacy pollution in American history, a cleanup effort that will create good-paying union jobs and advance environmental justice.

Prepare more of our infrastructure for the impacts of climate change, cyber attacks, and extreme weather events.

The Framework, which will generate significant economic benefits and returns, is financed through a combination of closing the tax gap, redirecting unspent emergency relief funds, targeted corporate user fees, and the macroeconomic impact of infrastructure investment.

**Contact Congresswoman Jaime Herrera Beutler to vote YES on the Bill. Call 360-695-6292 or 202-225-3536 or send an email through her website: <https://jhb.house.gov/Contact/>**

## **Proposed Financing Sources for New Infrastructure Investment**

- Reduce the IRS tax gap
- Unemployment insurance program integrity
- Redirect unused unemployment insurance relief funds
- Repurpose unused relief funds from 2020 emergency relief legislation
- State and local investment in broadband infrastructure
- Allow states to sell or purchase unused toll credits for infrastructure
- Extend expiring customs user fees
- Reinstate Superfund fees for chemicals
- 5G spectrum auction proceeds
- Extend mandatory sequester
- Strategic petroleum reserve sale
- Public-private partnerships, private activity bonds, direct pay bonds and asset recycling for investment infrastructure
- Macroeconomic impact of infrastructure investment
